NATIONAL CADET CORPS

2022 – 2023

Introduction

The National Cadet Corps is the Indian military cadet corps with its head Quarters at New Delhi. It is open to school and college students on voluntary basis. The National Cadet Corps in India is a voluntary organization which recruits cadets from high schools, colleges and Universities all over India. The Cadets are given basic military training in small arms and parades. The officers and cadets have no liability for active military service once they complete their course but are given preference over normal candidates during selections based on the achievements in the corps.

KPR Institute of Engineering and Technology raised 5 (TN) Girls BN NCC Unit - Senior Wing from October 2018, 6 (TN) Med Coy NCC and 2 (TN) Air Sqn NCC from 2021 and has many active functioning in the campus from its inception. The units coordinate and conduct various Camps, social service-based activities, etc.

AIM OF NCC

The 'Aims' of the NCC laid out in 1988 have stood the test of time and continue to meet the requirements expected of it in the current socio-economic scenario of the country. The NCC aims at developing character, comradeship, discipline, a secular outlook, the spirit of adventure and ideals of selfless service amongst young citizens. Further, it aims at creating a pool of organized, trained and motivated youth with leadership qualities in all walks of life, who will serve the Nation regardless of which career they choose. Needless to say, the NCC also provides an environment conducive to motivating young Indians to join the armed forces.

Motto of NCC

Unity and Discipline (Ekta aur Anushasan)
