I. Publications by faculty members:

1. Dr R Saravanan and Dr M Saravanabhavan published an article entitled “Exploring the Cutting Edge Properties Of 3 Nitrophthalic Acid Single Crystal: Growth, Structure, Optical And Quantum Chemical Studies” in *Journal Of Materials Science: Materials In Electronics*, in July 2023.
2. Dr. T Sathyaseelan published a paper titled “The Role of ICT in English Language Teaching” in the journal *European Chemical Bulletin* in July 2023.
3. Dr.R. Saranya published a paper titled “The Quest for Identity in a Male-Dominated Society: Representations of Women in Manju Kapur’s Difficult Daughters” in the journal *English Academy Review -A Journal of English Studies* in August 2023.
4. Ms. Brindha.S published a paper titled “The Role of Organisational Culture in Promoting Work - Life Balance: A Literature Review” in the journal *Journal of Harbin Engineering University* in August 2023.

II. Events organized:

The Department of English organised a webinar titled 'Soft Skills Required in Today's Era' on 26.07.2023, featuring an expert speaker, Mr. Princely Samuel who shared valuable insights into the importance of soft skills in the modern world. The webinar aimed to highlight the significance of developing and honing soft skills to succeed in both personal and professional endeavors.

The webinar covered several key points related to soft skills and their relevance in today's era, such as Rising Importance of Soft Skills, Communication Skills, Problem-Solving and Critical Thinking, teamwork and Collaboration. The speaker highlighted the five C's of Soft skills and also mentioned their importance in the professional and personal life. The five C's are Communication, Competence, Critical Thinking, Confidence and Collaboration.

In conclusion, the webinar on 'Soft Skills Required in Today's Era' shed light on the indispensable role of soft skills in personal and professional growth.

G20 KPRIET SDG

The webinar focused on the Porphyrin Materials and its application in the field of Molecular Electronics and Biomedical Sciences. The webinar was conducted with 50 members of Faculty, Research scholars and Students of KPRIET, Coimbatore. Other than the Chemistry Research Scholars and Faculty members, students from Chemical Engineering,

Biomedical Engineering and Electrical and Electronics Engineering were benefitted through the webinar. The interactive session after the talk was also really informative. The participants include the Research Scholars of SRMIST, Kattankulathur and NIT Rourkela.

The 'Power of Networking: Building Bridges to your Career' event was an Invited talk organized by the Department of English on

25.08.2023 (Friday) from 10:00 a.m to 11:00 a.m in the Communication lab. The session was conducted online using google meet as a

medium. Students of third year Electrical and Electronical Engineering were the target audience and thereby, the beneficiaries of the talk.

Professor Dr. W. Christopher Rajasekaran from Vellore Institute of Technology, was the speaker who addressed the students.

The 'Power of Networking: Building Bridges to Your Career' event was a resounding success, achieving its goal of empowering students to harness the power of networking for career development. Attendees left with enhanced networking skills, valuable connections, and a renewed sense of motivation to advance their careers through networking. The benefits experienced by the participants are as follows:

Enhanced networking skills: Attendees reported feeling more confident in their ability to initiate and maintain professional connections. Valuable connections: Attendees learnt the importance of professional networking and expressed their intention to follow up with newfound connections. Knowledge sharing: The lecture provided practical insights and actionable advice for effective networking
